

## Return an Audio Book/Music Early

*Not all audio books/ music files have the option for early return. You can always delete the file from your device/computer when you have finished listening to it, but if there is no option for early return you will have to wait until the end of the checkout period for the file to be removed from your account.*

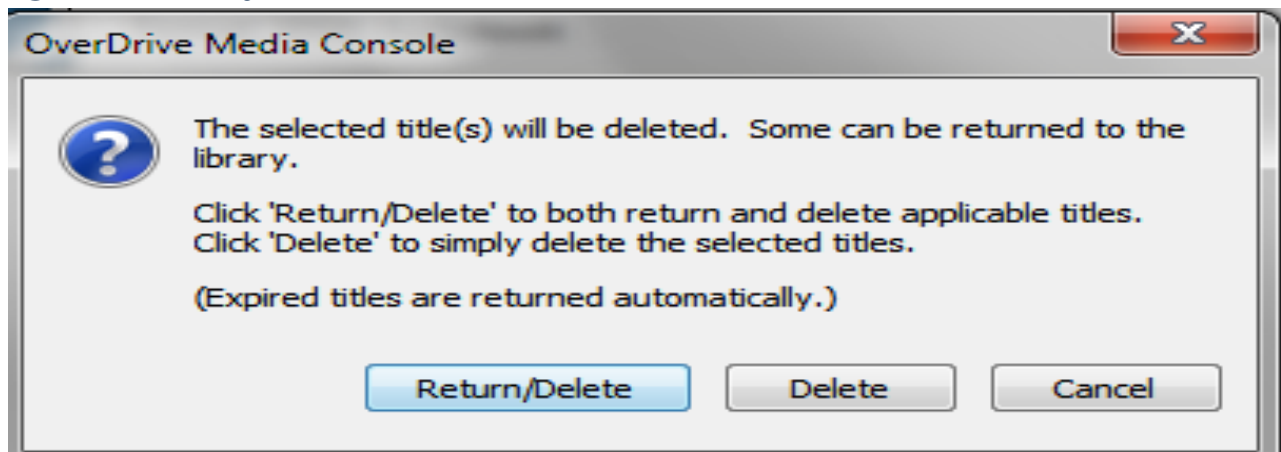

1. Open Overdrive Media Console and click on the file to highlight it.

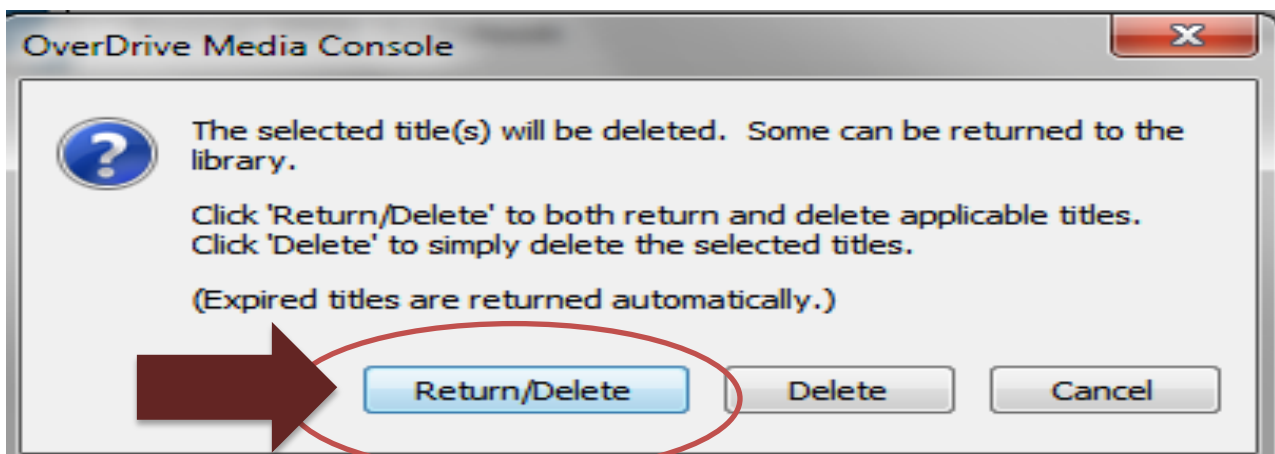

2. At the top of the window, click on 'Delete.'

3. This will open a new window which will ask what you would like to do with the file. *You can choose to delete the file and then download it again later before the due date.*

4. If the book can be returned early, you will see an option called 'Return/Delete.' Select this option to delete the file from your device and return the item.

5. Items that are not returned early are automatically deleted at their due date.
